**support our
campaigns!**

**promotes womens
rights, dignity and integrity**

Empowering women through providing them with the skills to generate income is one way in which we fight against FGM and child marriage.

95% of the proceeds are returned to the women, so that they can afford to send their children to school and improve their quality of life.

Poor socio-economic opportunities of Maasai women and girls increase the risk to FGM, child marriage and other types of abuse of their human rights.

Most of them are denied opportunity to education exposing them to no option than getting married at very tender age and submissive to all traditional and male perpetrated violence.

Nafgem empowers communities especially Maasai women and girls in designing strategies, that will enable them to eradicate the inhumane practices.

Through trainings of income generating activities, Nafgem provides Maasai women and girls to overcome poverty and other social abuse.

The merchandise sold by us, is made by Maasai cooperating with our „four windows Action“, which expresses the fight against FGM, child marriage, early pregnancy and gender-based violence.
